Somerville, MA: October 2, 2009

Arrowstreet is pleased to announce that the City on a Hill Charter Public School was honored with an AIA New England People's Choice Award in the category "The Space in Which I'd Most Like to Study." Winners were announced at the AIA New England Conference earlier this month.

Arrowstreet's design for the school includes the addition of an auditorium, new entry lobby, classrooms, and administrative offices. The façade consists of large areas of glass and aluminum to make the school inviting, while horizontal tongue-and-groove cedar siding blends with the residential neighborhood. The existing 20,000-square-foot historical building was completely renovated with new rooms, interior finishes, and building systems.

Arrowstreet is a multidisciplinary design firm providing architecture, planning, interior design, and graphic design services.
