Somerville, MA: December 1, 2008

The Burlington Mall, one of Simon Property Group's top revenue producing malls, recently opened its expansion wing leading to a new Nordstrom store and other high-end retailers.

Designed by Arrowstreet, the column-free addition features exposed wood, bamboo ceiling palettes, continuous skylights, and natural materials to create an open and light feel. Upscale amenities include an espresso bar, soft seating areas, and luxury restrooms. Arrowstreet also designed new entries and updated finishes for the existing mall, in addition to completing a contemporary renovation to the food court.

Arrowstreet is a multidisciplinary design firm providing architecture, planning, interior design, and graphic design services.
